

## SUPPLY LIST FOR ISS HIGH SCHOOL STUDENTS 2009-2010

The following list is not intended to be too detailed but should give students and parents a rough guideline to the sort of materials and equipment which would be appropriate for their student.

### General supplies

1. **A lock** for your lockers (regular and PE). We advise students to supply their own combination locks, available at local hardware stores.
2. **Ring binders** - two large ones with dividers or several small ones.
3. **A block of lined writing paper.**
4. **Graph paper** can be useful, particularly for science and mathematics classes.
5. **A pencil, eraser, ballpoint pen and ruler.**
6. **A geometry set** (a set square, compasses & protractor) - this is useful for many classes other than just mathematics.
7. **A set of colored pencils.**

### Equipment for special classes

1. **Physical Education:** School t-shirt, shorts, socks, genuine sports shoes (non-scuff, white-soled) and a towel are required. A track suit (sweats) will also prove useful for outdoor activities. Students involved in extra-curricular sports will require more specialist equipment.
2. **Mathematics:** Students involved in mathematics courses will receive instruction on the use of certain types of calculators. Students are not required to have these calculators but more and more students have found it beneficial to own one. Those taking IB Math Studies are being instructed on the use of graphing calculators such as the **TI-81 or TI-82**. Those taking IB Mathematics Standard and IB Mathematics Higher classes in 11<sup>th</sup> and 12<sup>th</sup> grade should consult their teacher before purchasing a calculator.
3. **Computing and technology course students:** It is recommended that students have access to a USB Flash Drive.
